

# Spectar™ Sheet

**Spartech offers Spectar™ Co-polyester (PETG) stock sheet for the Distribution Market.**

Spectar™ is designed for the visual merchandising, retail image and fabrication markets. It can be used whenever printability, toughness, and ease of fabrication and chemical resistance are required. Spectar™ Sheet is manufactured using Eastman Spectar™ 14471 resin and is also known as Spectar™ PETG. The properties of Spectar™ Sheet can be the choice for a variety of specialty applications.

Spectar™ PETG is a rigid co-polyester material with good impact strength, excellent thermoforming and fabrication characteristics, and excellent resistance to chemicals. Spectar™ Stock Sheet may be ordered from .040" to 0.500" sheet thickness.

Ultros™ Stock sheet is available in gauges less than .040"

## **FEATURES & BENEFITS**

Spectar™ Sheet is...

- 18 times tougher than acrylic
- 3-10 times tougher than impact-modified acrylic
- Cold bends without stress whitening
- Excellent printability
- Superior thermoforming characteristics
- Great chemical resistance

## **TARGET APPLICATIONS**

Spectar™ Sheet is a great choice for...

- Screen printing
- Digital Printing
- Thermoforming
- Indoor signage
- Back boards
- Point of Purchase displays

## **AVAILABILITY**

Spectar™ Sheet is readily available from Spartech Plastics.

Size: 48 5/8" x 96 1/8" sheets with protective masking

Thickness: .040" thru .500" are readily available and in stock
